

AUTOLOADER - AUTOMATIC MINCE PORTION LOADING SYSTEM

The **Jenton-Ariana** Auto Loader developed for the Red Meat Industry. Using the tried and tested JENTON-ARIANA innovated "bomb door" loading system. Loading ground mince meat portions into thermoformers, tray sealers and flow wrappers at up to 140 portions per minute. These systems fully automate a ground mince production line ensuring maximum throughput and minimum staffing levels in a hygienic manner. Loading systems for the thermoformer are available in single row format, loading up to 4 portions per cycle, double row format, loading up to 8 portions per cycle or in triple row format loading up to 9 portions per cycle.

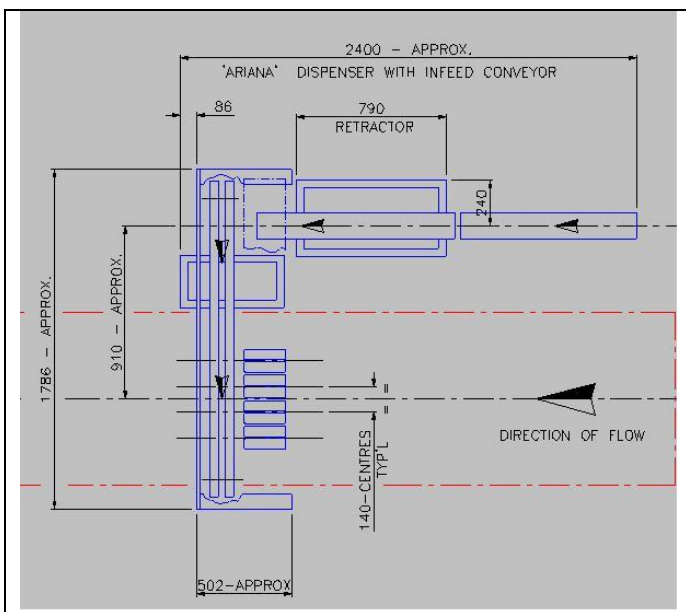

The system uses PLC control and is constructed in stainless steel up to IP 67 waterproof protection.

The Auto Loader benefits:

- Rugged construction.
- Well proven design.
- Extremely easy operation.
- Considerably more hygienic than manual placement.
- Avoids repetitive strain injuries.
- Significantly lower personnel expenditure
- Accurate "Bomb Door" loading
- Easy clean spray system
- Highest possible production rates

DIMENSIONS

SPECIFICATIONS

Autoloader	
Packing speed	Up to 140 portions/min
Portion size range	Thickness: 20 mm – 70mm Width: 20mm – 110mm Length: 40mm – 205mm
Protection	IP65/IP67
Machine weight	250kg
Power supply	AC 200-240v 50Hz 4A
Air supply	4bar 10 L/min (free air)
