

Automatic Pad Placer for Tray Sealers & Thermoformers

FOOD PACKAGING AUTOMATION
JENTON *ariana*

Jenton Ariana design and manufacture a range of automatic pad placers for both tray sealers and thermoformers. We are able to use either pre-cut pads or cut directly from roll-fed material. Our machines are designed to have as small a footprint as possible and yet are capable of loading up to 180 pads/minute.

Our biggest selling machine is the Automatic Pad Placer for tray sealers using pre-cut pads. The interchangeable pad cassettes make this machine ideal for all applications, even when a variety of pads are used, changeover from one size to another takes a matter of seconds.

Features

- Place up to 180 pads/minute.
- Machines available for pre-cut and roll-fed material.
- Pad misfeed alarm.
- No pad alarm.
- All stainless steel construction.

Advantages

- Very easy to set up using colour touch-screen.
- Simple connection to tray sealer/thermoformer.
- Minimum footprint.
- Up to IP67 protection.
- Very simple maintenance with easy access.

Benefits

- Practically eliminates trays without pads.
- Will not slow down production line speed.
- Most hygienic pad placing eliminates manual pad placing.
- Fit and forget operation.

“The Jenton-Ariana Automatic Pad Placer is without doubt the most efficient way to ensure complete pad placing in trays”
